## 💬 Conversation

Hello! 🎙 I'm your voice-enabled AI assistant. Click the microphone button in the sidebar to record a message, and I'll respond to you!

Hi, how are you?

Hey there! I'm doing great, thanks for asking! How are you today?

the time now.

I actually can't tell you the current time since I don't have access to real-time information. You can check your device's clock though!

What's the time in New York?

I can't tell you the exact current time in New York since I don't have access to real-time information. But New York is in the Eastern Time Zone (ET) if that helps! You can easily check New York's time online or on your phone.

Tell me about today's India's Republic Day.

Happy Republic Day! Today, January 26th, is when India celebrates becoming a republic in 1950. It's one of India's biggest national holidays, marked by a grand

parade in New Delhi, cultural performances, and flag hoisting ceremonies. The day honors when India's constitution came into effect, making it a fully independent republic. Pretty significant day for India! IN
